Highest Quality Standards Engineered in Germany By Sartorius

Best Value in Its Class for Basic Weighing Tasks New Entris® II Laboratory Balances

No matter what you're weighing, a new Entris® II balance is always the right choice.

Offering unrivalled value at a budget price point, this is the only analytical balance in its class featuring isoCAL, LED touch technology and 12 built-in applications. Backed by almost 150 years of German engineering expertise, and available in 40 different models, you'll easily find an Entris® II balance which exactly meets your specific weighing needs.
