Crysta IVF opens Indore centre

18 August 2021 | News

Aims to make IVF treatment accessible to all

Delhi-based Crysta IVF has launched a centre in Indore. The centre is guided by Dr Hemant Athavale who has more than 25 years of experience and Dr Mangala Athavale with 40 years of expertise in infertility-related treatments.

The Indore centre hosts various treatments such as IVF, IUI, embryology and surrogacy. The cost of IVF treatment varies for each fertility case depending on various factors such as the amount of stimulation required, egg donor, age, freezing of eggs or sperms, usage of advanced fertility treatment such as laser-assisted hatching, ICSI, Tesa etc. The centre at Indore is well-equipped with advanced technology to cure different types of infertility problems.

Dheeraj Jain, Founder, Crysta IVF, said “With this centre at Indore, we hope to make fertility treatments accessible and affordable to all.

The centre in Indore is part of the company’s ambition of launching 12 new centres in the next nine months.
