Hester Biosciences appoints Priya Gandhi as Executive DirectorÂ

29 October 2021 | News

She has played an active role in setting up the manufacturing plant and the business activities in Hester Africa

Hester Biosciences has appointed Priya Gandhi as Executive Director in the company. Priya Gandhi joined Hester Biosciences in the year 2016 and has worked since then from being an officer to a Deputy Director, before being inducted into the board.

Gandhi is currently part of the team which is involved in designing Hester’s strategic direction besides being involved in day-to-day business operations. In addition, she also directs the company’s communication and brand management. She has played an active role in setting up the manufacturing plant and the business activities in Hester Africa.

Gandhi has done her Under-Graduation from Srishti School of Art, Design and Post-Graduation in Management for Family Business from Indian School of Business (ISB), Hyderabad.
