Neuberg Diagnostics expands footprint in Haryana

10 May 2022 | News

Launches lab in Gurugram and touchpoints in different regions of Haryana

Neuberg Diagnostics has launched a processing lab in Gurugram. The lab in Gurugram and other upcoming diagnostic labs will be wholly owned by Neuberg while the 100 touchpoints will be set up in the own or franchisee business model.

The new lab in Gurugram is equipped to conduct and process wide variety of tests. Additionally, Neuberg as a group is equipped to conduct futuristic tests such as genomics, proteomics, metabolomics, molecular biology, and digital pathology with advanced systems like NovaSeq6000. The new lab is capable to process about 1000 samples in a day and deliver results within the given turnaround time which differs from test to test while maintaining the best-in-class quality.

Neuberg plans to open labs in Faridabad, Panipat, Sonipat, Rohtak, Hisar, Karnal, Kurukshetra, and other key cities of Haryana.
