RisamPure launches AtmoPure air purifiers

18 February 2022 | News

Atmopure air purifiers have five-stage purification system inside

RisamPure, owned by the former promotors of Bharat Serums & Vaccines Ltd (BSVL), has launchedAtmoPure range of air purifiers. Aimed at providing the best health care and well-being products in India, RisamPure will be introducing two variants - Medical Grade Hepa 14 Range and Advanced Grade Hepa 13 Range.

AtmoPure air purifiers are built to proactively protect your health by ensuring no air-borne threats escape into the air you breathe. Atmopure air purifiers with its state-of-the-art five-stage purification system inside, and eliminates all kinds of air-borne threats, as they come with built-in Pre-Filter + Activated Carbon Filter + '3D Attack' Technology.

Going forward, the company plans to conduct extensive research to come up with more innovative healthcare solutions. RisamPure plans to expand its portfolio by bringing in more products in the purification range targeting B2B and other segments.
