Strykerâ??s Global Technology Centre opens in Gurugram

07 June 2022 | News

The 150000-centre will help accelerate innovation globally

Medical tech company Stryker has opened a new research and development facility, Stryker's Global Technology Centre (SGTC), at the International Tech Park, Gurugram.

The 150,000 sq ft facility will help accelerate innovation in India and globally, and further support the company's mission to make healthcare better.

The centre is designed to connect with healthcare professionals and develop new technologies to meet their needs. Customers can access a range of Stryker's products and learn more about the engineering behind the company's life-changing technologies and innovations.

Stryker is one of the world's leading medical technology companies and, together with its customers, is driven to make healthcare better. The company offers innovative products and services in Medical and Surgical, Neurotechnology, Orthopedics and Spine that help improve patient and healthcare outcomes.
