5th edition of REFCOLD India to be held in Gandhinagar from December 8 to 10, 2022

29 July 2022 | News

REFCOLD India will bring together Indian and international refrigeration industry stakeholders, and usher in innovation in technology

The 5th edition of REFCOLD India, South Asia's largest exhibition and conference on refrigeration and cold chain industry solutions, will take place at Mahatma Mandir in Gandhinagar from December 8 to 10, 2022.

REFCOLD India is an initiative of The Indian Society of Heating, Refrigerating and Air Conditioning Engineers (ISHRAE), which has over 44 chapters and nearly 30,000 professional members. ISHRAE is also launching international chapters in Bangladesh, Nepal, Sri Lanka, Kenya and Abu Dhabi. ISHRAE has been actively working towards the growth of the refrigeration and cold chain industry to bring the best technology solutions and enhance the sector's growth.

REFCOLD India will bring together Indian and international refrigeration industry stakeholders, and usher in innovation in technology that works on eliminating food wastage. Cold Chain management has become an integral part of the supply chain industry comprising refrigerated storage and refrigerated transportation.

The event will also see technical workshops, panel discussions, and knowledge-sharing programmes. Buyer delegations from India and many other countries and various industry associations from across the globe are also expected to visit the exhibition.
