Medical cold chain solutions provider B Medical Systems opens unit in Delhi

01 August 2022 | News

Signs MoU with Selco Foundation to strengthen Indiaâ??s cold chain sector

Luxembourg-based medical cold chain solutions provider B Medical Systems has opened its new office based out of New Delhi, for its India subsidiary.

This is B Medical Systems India’s third office in the country, following the ones opened in early 2021 in Mumbai and Ahmedabad. With increasing business opportunities in India, the company is focused on expanding its presence across the nation to support its clients and stakeholders in their efforts of creating safe, reliable and sustainable healthcare systems by providing high-quality medical cold chain solutions.

During the event, an MoU was also signed between B Medical Systems India and the Selco Foundation for the two organisations to collaborate and strengthen India’s cold chain sector , with a focus on the mid and last-mile delivery of vaccines and critical samples to people living in remote areas of the country.
