Yashoda Hospital, Ghaziabad unveils new department for robotic surgery and AI

12 April 2023 | News

Union Health Minister inaugurates the department

Ghaziabad-based Yashoda Super Specialty Hospital has launched a new department for robotic surgery and artificial intelligence (AI). The department was inaugurated by Union Minister of Health and Family Welfare, Dr Mansukh L Mandaviya

in the presence of Union Ministers, Hardeep Singh Puri and Gen VK Singh.

The hospital has installed one of the 4th gen robotic surgery programmes, Da Vinci by US-based Intuitive, at the newly opened department. The hospital aims to make RAS affordable and accessible to the public through this initiative, with a focus on driving better patient outcomes.

While inaugurating the department and scientific session, Dr Mandaviya said that it is setting a milestone in the journey of health for all missions of the Government of India. He said that it is not only professional work for them to add this kind of service but they are doing it for the growth of the nation. He said the mindset of the nation has changed since 2014 people were only expecting the government to work for the nation but now private hospitals have started to come in the front with a holistic approach to the growth of the nation.

The hospital also conducted an informative session on the benefits of Robotic surgery and AI in healthcare, with a focus on robotic surgery technology.

Hardeep Singh Puri said that other private hospitals should also come up with such great initiatives as the Yashoda –Kaushambi to take India to a leading position in healthcare globally.
