Rank 25 - Oxbridge College of Science and Commerce

Oxbridge College of Science and Commerce, which comes under the umbrella of Oxbridge Group of Institutions, was established in the year 1998. Affiliated to the Bangalore University, the college is recognized by the Government of Karnataka.

The institute started BSc course in biotechnology in 2002 and MSc in 2006. For admission in MSc in biotechnology, a candidate must have passed BSc degree with a minimum of 50 percent of marks in all the three optionals in aggregate. The applicant should have studied chemistry or biochemistry as a compulsory subject along with other science subjects like biotechnology, environmental science, zoology/ applied zoology, botany/ applied botany, sericulture, life science/ biological science, to list a few. Duration of the course is two years which is divided into four semesters. Student intake in both the courses i.e., BSc and MSc is 30 each.

The college possess well-equipped laboratories in each department. Each student is provided with the necessary equipment for individual experimentation in the practical classes. The library has nearly 5,000 text books and reference books. It also has subscription to 12 magazines, 17 scientific journals and periodicals of both national and international repute.
