

India gets first AI based health insurance system

21 August 2018 | News | By Manbeena Chawla

The traditional cashless claim request has been drastically brought down to a minute using AI.

ICICI Lombard has launched India's first Artificial intelligence (AI) based technology to facilitate instant health insurance claims approval.

As a result, the traditional cashless claim request which takes an average of 60 minutes of processing has been drastically brought down to a minute using AI.

The varied medical procedures where AI is being deployed includes Cataract, Maternity, Appendicitis, Hemodialysis and Hysterectomy.
