

WHO to develop benchmark documents for traditional medicine

18 September 2018 | News

The documents are expected to provide minimum requirements for qualified practice by practitioners of Ayurveda, Panchkarma and Unani.

World Health Organisation (WHO) is developing Benchmark Documents for practice in Ayurveda, Panckarma and Unani system as part of its global strategy to provide safe, effective and accessible Traditional Medicine to global community. Development of these benchmarks documents is included in the Project Collaboration Agreement (PCA) between WHO and Ministry of AYUSH. WHO Working Group Meetings for three WHO benchmark documents scheduled 17 -19 September, 2018, was recently inaugurated at Jaipur. The three days programme containing four sessions on each day has been organized by Ministry of AYUSH and coordinated by National Institute of Ayurveda (NIA), Jaipur.

On this occasion, Secretary, Ministry of AYUSH Vaidya Rajesh Kotecha briefed about the activities undertaken by the Ministry of AYUSH. He informed that National Ayurveda Morbidity Standardized Terminology Engine (NAMSTE) is being actively used for documentation of AYUSH facilities and activities including recent rehabilitative activities undertaken by AYUSH at Kerala Flood. He further informed about the activities undertaken by Ministry of AYUSH under AYUSHMAN BHARAT Scheme of Govt. of India and suggested that WHO may also provide assistance in this regard. He requested WHO may also help Ministry of AYUSH for developing country specific module and applications based program like M-Yoga and M-Ayurveda etc.

Total 39 experts, representing 18 countries, 13 experts each from Ayurveda, Panchkarma and Unani would be reviewing the draft document developed by WHO through consultative process.

The purposes of the meeting are to review, comment and revise as required each of the three zero draft documents prepared by the experts. This is aimed at arriving at an International consensus regarding the structure and content of each of the documents. The documents are expected to provide minimum requirements for qualified practice by practitioners of Ayurveda, Panchkarma and Unani to provide minimum safety requirement for practicing these and also to serve as a reference to national authorities to establish/ strengthen regulatory standards to ensure qualified practice of such system and patients safety.

Dr. Sungchol Kim, Regional Advisor, Traditional Medicine, WHO Welcomed all the Experts and extended his thanks to Ministry of AYUSH for financial and logdgestic support and stressed about the need of integration of Traditional Medicine System in the conventional medicine system.

Dr. Soumya Swaminathan, Deputy-Director General, WHO stated that Traditional Medicines are an important integral part of Universal Health Coverage Program specially under Sustainable Developmental Goal-3 (SDG-3). She informed that Ayurveda, Siddha and Unani Systems have included in 2nd Traditional Medicine Module of ICD Chapter-11 and Year 2018 is being celebrated as 40th Anniversary Year of Alma Ata Declaration.
