

Foreign medical aspirants in 2018 upsurge by 24%

10 January 2019 | News

The number of students who applied for the mandatory eligibility certificate from MCI to study medicine abroad almost doubled in the year 2017-18 from 2016-17

As per a fresh RTI data, the Medical Council of India (MCI) issued 3,386 more eligibility certificates to foreign medical aspirants looking to enroll in an overseas medical university in the year 2018.

RTI registration number MEDCI/R/2018/51942 states that during the period 01/01/2018 to 31/12/2018, a total 17, 504 eligibility certificates have been issued by MCI. It is to be noted that there has been a constant increase in the number of students going abroad since 2015.

As per the numbers available from RTI no. MCI- 201 (E-RTI)/ 2018- Eligi./, the number of students who applied for the mandatory eligibility certificate from MCI to study medicine abroad almost doubled in the year 2017-18 from 2016-17. Year 2018 saw a further hike in the numbers.

“As per the recent data, nearly two lakh more candidates are going to take the NEET exam in 2019, a growth of 14.4% from last year. The entrance test for MBBS/ BDS aspirants saw registrations soar to a record 15.19 lakh candidates as against 13.26 lakh.

The number of students has increased but the numbers of seats remain the same leading to tougher competition. It is for sure that students who will not secure a Government seat are likely to go to foreign medical colleges owing to lower fees, good quality education and better opportunities,” said the President & Founder of MCI recognized, Caribbean based medical college, Texila American University, Saju Bhaskar.

As per the information provided in the previous RTI communication, MCI issued a total of 8,737 eligibility certificated in the year 2016-2017 while 14,118 eligibility certificates were issued in 2017-18. The number of eligibility certificates issued also includes pending of the previous years suggested the RTI reply.

The mandate of getting an eligibility certificate to study medicine abroad came into force only from January 2014. The notification stated that Indian national/ overseas citizen of India who has taken admission in a medical university/ institution outside the country on or after January 4, 2015.
