

TiE Delhi-NCR to organize Healthcare Summit 2019 in New Delhi

18 February 2019 | News

Through its latest event, TiE Delhi-NCR aims to encourage investors and entrepreneurs to tap into the potential for disruption within the Indian healthcare ecosystem.

TiE Delhi-NCR, one of the most committed chapters in the global TiE network, is gearing up to organise Healthcare Summit 2019 under the aegis of its Healthcare Special Interest Group (SIG) at the India Habitat Centre in New Delhi. Scheduled on February 22, 2019, the day-long event will bring together key stakeholders – including policymakers, industry leaders, investors, and entrepreneurs – to discuss existing challenges and opportunities within the Indian healthcare sector.

The topics that will be dwelt upon at Healthcare Summit 2019 will include a session demystifying the Ayushman Bharat scheme. Top industry leaders will also share insights on various topics such as emerging health-tech trends and tapping into opportunities within the healthcare sector. The issue of investments into new ventures by medical practitioners to facilitate affordable healthcare for less-privileged consumers across India will also be discussed at the event.

Healthcare Summit 2019 boasts an impressive speaker line-up of 25+ industry leaders. This includes Ashwin Raguraman (Co-Founder & Partner- Bharat Innovation Fund), Dinesh Goel, Partner at Saina Capital; Dr. Shuchin Bajaj (Founder Director – Cygnus Hospitals); Garth Holloway (CMD – Innotech Aqua Ltd), Siddhartha Bhattacharya (Secretary General, NATHEALTH – Healthcare Federation of India), and Rema Subramanian (Co-Founder and Managing Partner – Ankur Capital), Anamika Roy Rashtrawar, Director Marketing IFFCO Tokio General Insurance, Dr. Avijit Bansal, Co-Founder & CEO Windmill Health Technologies, Dinesh Arora, Deputy CEO National Health Agency, Govt. of India among others.

Through its latest event, TiE Delhi-NCR aims to encourage investors and entrepreneurs to tap into the potential for disruption within the Indian healthcare ecosystem. The summit will also provide a conducive space for meaningful conversations about emerging industry trends and recent technological developments, as well as its future direction.
