

Oasis Centre for Reproductive Medicine opens new facility

05 March 2019 | News | By Manbeena Chawla

There are currently eight centres across South India and the new one at Miyapur is the fifth centre in the twin cities of Hyderabad and Secunderabad.

Hyderabad based Oasis Centre for Reproductive Medicine, a comprehensive healthcare provider with specific attention to infertility treatments, recently inaugurated a new centre at Miyapur to expand its services wing.

There are currently eight centres across South India and the new one at Miyapur is the fifth centre in the twin cities of Hyderabad and Secunderabad. With the inauguration of the 9th centre, Oasis has now covered all the prime locations in Hyderabad to provide these services. And also, Oasis launched an exclusive Male Fertility Clinic – Androlife at all their facilities. This is the first such male-specific reproductive facility throughout India.

There has been a multifold increase in male fertility arena and as a result of this; Androlife was launched to be the one-stop solution for male fertility issues. Androlife operates its services at each of their centres located in Hyderabad, Warangal, Vijayawada, Vizag and Chennai with customized treatments & Advanced state of art Andrology lab.
