

Clinito aims to revolutionize access to Advanced Rehab Technologies

29 May 2019 | News

Conducted Robotic Assisted Rehab and Aqua Rehab Live Sessions for Doctors at Asia's first under water gym at Jupiter Hospital

Clinito, an online marketplace for medical equipment, consumables and services, in its flagship event 'Spotlight' undertook an interactive Rehabilitation and Physiotherapy workshop for clinicians and healthcare professionals to strengthen their knowledge to enhance clinical outcomes for their patients. Aimed at '*Fostering Scientific Interactions*', the event was themed around Robotic Assisted Rehabilitation and Aqua Rehab at Asia's first under water Gym with sessions led by **Dr. Amit Dhumale, D.N.B (Physical Medicine & Rehabilitation) Diploma Orthopedics, M.B.B.S** and **Dr. Priya Tawde, Occupational Therapist**. Participants at the workshop were taken on a tour of the rehabilitation facilities with a live session on aqua rehab and a hands-on-session at the Neuro Rehabilitation gym at Jupiter Hospital's Centre of Excellence in Rehabilitation.

A leader in creating state of the art facilities for rehabilitation, Clinito Spotlight's partnership with Jupiter Hospital highlights how advanced rehabilitation technologies such as assisted robotic therapies and aqua rehab can be leveraged for improved patient outcomes. Clinito now is enabling access to doctors to use advanced rehabilitation technologies such as assisted robotic therapies and aqua rehab to provide a faster and better recovery for patients.

Speaking about Clinito Spotlight, **Anand Apte, Co-founder & CEO, Clinito** said, "*At Clinito, our objective has always been to build our community of clinicians through knowledge sharing initiatives. As procuring partners of leading hospitals across India, we also truly believe in the importance of giving our medical fraternity access to the latest technical innovations and applications in their areas of expertise. Clinito Spotlight is a step in this direction and we hope that healthcare professionals find value in our events which leads to positive clinical outcomes.*"

Dr. Amit Dhumale, D.N.B (Physical Medicine & Rehabilitation) Director of Rehabilitation Services said "*The Clinito Spotlight event conducted at Jupiter hospital Rehabilitation center of excellence are unique in focussing on improved scientific interactions. We are interacting with young rehab professionals and old alike and giving them access and exposure to Advanced Rehab Technologies. I do believe with this level of exposure Jupiter Hospital and Clinito improve the knowledge and skill level of the rehab professionals. These advanced Rehab technologies are not easily available for training elsewhere even though they play a crucial role in the rehab process - making Clinito Spotlight the need of the hour.*"

Over the last few months, Clinito Spotlight's Physio and Rehab event series has received an overwhelming response from

the healthcare industry. In continuation of its efforts, Clinito now plans to create and roll-out various medical programmes through webinars and live sessions. In partnership with leading hospitals, Clinito is set to adopt best practices, enable access to technological innovations and improve the quality of healthcare in India with more such industry focused events.
