- o Baroda cancer center, launched in May' 2016, clocking double digit EBITDA margin consistently
- o Rajkot center ramping up well with reduction in losses, nearing break-even point
 - Continuing strong growth in Maharashtra region, with 25% revenue growth y-o-y:
- o Continued reduction in losses from Borivali and Nagpur new centers
- o Nashik center expansion driving enhancement of specialized service offerings in the region
 - Kolkata cancer center launched, offering comprehensive services in an upcoming urban locality
 - Positive trend at Milann reflected in growth in registrations, IVF cycles and revenues
 - New first of its kind Oncology Information System goes live at Bengaluru - Center of Excellence which will drive digital transformation and set the foundations for data driven analytics and research towards improving clinical outcomes

Commenting on the results, Dr. B.S. Ajaikumar, Chairman and CEO, HealthCare Global Enterprises Ltd. said, "We are pleased to report Q1 FY20 results with continuing growth across our businesses. Our core HCG oncology business continues to get stronger with enhanced presence and scale across attractive markets, at a time when cancer incidences are on a rising trend. Our oncology focused business model is fundamentally robust - clinical and operational excellence, economies of scale and especially with majority capex and investment cycle behind us, we remain excited about the growth prospects for the business, in spite of short-term challenges and negative outlook in the ecosystem for healthcare, industry and economy at large. With strong performance of existing centers as the base foundation, and new centers nearing inflexion point to replicate the existing centers as the future growth drivers, we are positively looking forward towards superior cash flows and return generation from the capital deployed over the last few years. Having created a unique platform across oncology, fertility and precision diagnostics, with Pan-India leadership, we remain committed to driving value creation for all our stakeholders."
