

Dr Abhideep Chaudhary joins BLK Super Specialty Hospital

13 August 2019 | News

Dr. Chaudhary specializes in Liver Transplant, Pancreas and Biliary Diseases and Minimally Invasive Surgery (Laparoscopic and Robotic Surgery) and has more than 18 years of excellent surgical experience

Dr Abhideep Chaudhary has joined BLK Super Specialty Hospital as Director & HOD, Liver Transplant & HPB Surgery.

Dr. Chaudhary specializes in Liver Transplant, Pancreas and Biliary Diseases and Minimally Invasive Surgery (Laparoscopic and Robotic Surgery) and has more than 18 years of excellent surgical experience.

Dr. Sanjay Mehta, Head, Medical Services, BLK Super Specialty Hospital said, “We are happy to introduce Dr. Abhideep Chaudhary in our highly advanced and state of the art facility, BLK Institute for Digestive and Liver Diseases. Dr. Chaudhary is bringing in a rich experience of 18 years in performing more than 1250 successful Liver transplant and HPB Surgeries with a success rate of more than 90%. With Dr. Chaudhary on board, our Institute for Digestive & Liver Diseases has added one more highly experienced specialist at the Institute and this strengthens our faculty.”

Prior to BLK Super Specialty Hospital, Dr Chaudhary has worked as an integral part of core specialists teams at several prestigious medical institutions in Delhi and NCR. He also served as a Chief Clinical Fellow/Senior Administrative Fellow (Transplant Surgery) and Multiorgan Transplant Surgery Fellow at the University of Pittsburgh Medical Center, USA.

“Dr. Abhideep has given a new dimension to the ways Specialists perform hyper reduced liver graft for small babies, posterior sector liver graft, dual lobe transplant, LDLT in patients with extensive portal vein Thrombosis. He is also known for performing simultaneous liver and kidney transplant. His expertise and experience would add further value to the Institute in terms of high-end transplants and treatment.” added Dr. Mehta

"I would like to thank BLK Hospital for providing me the opportunity to work with excellent team here. BLK Super Speciality Hospital is known for passion for healing and I have embraced its vision and mission to serve the patient with best-in class facilities and expertise", added Dr. Chaudhary.

He is also an active member of various prominent medical organisations which include the American Society of Transplant Surgeons, Indian Medical Association, Association of Surgeons of India, International Liver Transplant Society and Founder member of Liver Transplant Society of India.

Comprised of Surgeons, Gastroenterologists, Intensivists, Anesthetists, Technicians, Counsellors and Specialised Nurses, Institute of Digestive & Liver Diseases at BLK Super Specialty Hospital offers robust and comprehensive treatment programmes for a wide range of digestive and liver diseases.
