

RDC India announces ISO compliance for Accu-Chek brand

26 December 2019 | News

Central Drugs Standard Control Organisation (CDSCO) announced the compliance of Accu-Chek with the revised standards of IS/ISO 15197:2013

Roche Diabetes Care (RDC) India announced that its Accu-Chek brand of blood glucose monitoring products are compliant with the revised standards of IS/ISO 15197:2013 announced by Central Drugs Standard Control Organisation (CDSCO), Directorate General of Health Services, Ministry of Health & Family Welfare.

The original notification issued on 16 February 2016 stated that the revised IS/ISO 15197:2013 were to be effective after 36 months of its publication by Bureau of Indian Standards (BIS), which was stated to be October, 19, 2016. Given the 36-month period of transition the effective date for the implementation of IS/ISO 15197:2013 is now 18 October 2019.

Using products that comply with the above mentioned standards will give confidence to people with diabetes that their meter gives most accurate readings of their blood glucose level, thereby enabling better management of their condition.
