KIIT to host training on downstream bioprocess development

27 December 2019 | News

To be executed by eminent experts from GE Healthcare and KIIT

Sponsored by the National Biopharma Mission, hands-on training on bioprocess development is being organised at the Kalinga Institute of Industrial Technology (KIIT) Technology Business Incubator in Bhubaneshwar from 20th to 24th January 2020.

Advanced downstream processing involves design, optimization and trouble shooting of chromatographic processes. It also includes development of a scalable, economic and robust chromatographic process with purity, recovery and productivity suitable for manufacturing scale.

The training session at KIIT will be executed by eminent experts from GE Healthcare and KIIT. It offers an excellent opportunity for interaction with leading stakeholders of the biopharma industry.
