Gandhi Automations gets recognition for innovation

26 December 2019 | News

Ashvani Kumar Chaubay, State Health Minister presents WASME Award of Warehouse & Logistic Innovation Award to Gandhi Automations

World Association for Small and Medium Enterprises (WASME) is a global non-profit organization, that has been spearheading the cause and development of Small and Medium Enterprises (SMEs) world over since its inception in 1980.

Warehousing and logistics are crucial factors for companies to gain a competitive edge. With the advent of modern manufacturing, which combines smart and effective products with advanced and innovative technologies, the very definition of warehousing and logistics has evolved to a much larger and integral concept.

Gandhi Automations range of Entrance Automation and Loading bay range of products have changed the evolution in traditional warehousing powered by advanced engineering technology that is not only impacting logistics but the supply chain as a whole. Thus, Gandhi Automations Pvt Ltd once again bags the INNOVATION AWARD for advanced tech innovation as the logistics and manufacturing sectors move beyond the rudimentary manual operations in the supply chain.

Gandhi Automations has successfully evolved into an innovative company catering to all kinds of needs. We have an extremely talented in-house research and development team which designs customized solutions for our customers. Our product engineering team uses the latest software in combination with technologically advanced machinery to provide our customers with an unmatched experience in entrance automation and loading bay equipment

We have made significant improvisations and innovations to our loading bay equipment range of products as well as high speed doors. Our new Forklift Roll-off Barrier lip Dock Leveler, Prime Cold Reset, High Speed Doors- Prime Reset, High Speed Doors- Prime Internal Doors, Industrial Sectional Overhead Doors, Dock Levelers, and Isotherm Rolling Shutters are some of the most fast moving innovations and products that have changed the landscape of logistics and warehousing automation.

Quality is a key driver of progress for us and is an integral part of every process we undertake, from R&D to product delivery. Our quality policies are constantly upgraded to exceed our customer’s requirements and expectations. Gandhi Automations is committed to delivering high-quality products and services to its customers and continuously strives to improve in all aspects. Our products and services are geared towards ensuring that every delivery to the client passes through our stringent quality measures. This policy has engendered a work culture that exhibits a no-compromise attitude towards quality.

Gandhi Automations is known for its research and development, quality and commitment towards customers. The material handling industry is responding with new equipment, technology, and systems that enable complete supply chain visibility, thus allowing customers to see how their investments are impacting their overall operation. The demand for material handling automation and equipment has increased exponentially over the past few years. It is because of the increasing production capacity, reducing man hours and meeting deadlines. Now with more and more companies streamlining their processes, use of material handling equipment for any industry is a must. Demand for such automation is the need for the hour; and also, to deliver faster, hassle free loading / unloading functions to reduce supply chain operating costs.
