

IQVIA features in Fortune's Most Admired Company List

23 January 2020 | News

IQVIA is recognized in FORTUNE's Healthcare: Pharmacy and Other Services category

IQVIA Holdings Inc. has been named to FORTUNE magazine's "World's Most Admired Companies" list. IQVIA has received this distinction every year, since its inception, following the merger between IMS Health and Quintiles in 2016. IQVIA is recognized in FORTUNE's Healthcare: Pharmacy and Other Services category with high marks regarding efficient use of corporate assets, management quality, effectiveness in conducting business globally, and long-term investment value.

"IQVIA is privileged to be on FORTUNE's list of the World's Most Admired Companies for the third consecutive year. This honor reinforces and recognizes the innovation and drive of our 65,000 employees around the world. Their work supports clients, providers, payers, and patients who benefit from our transformative advances in analytics and technology to improve healthcare outcomes," said IQVIA Chairman and CEO Ari Bousbib.

FORTUNE's World's Most Admired Companies list is the definitive report card on corporate reputation. Since 1997, FORTUNE has identified, selected and ranked the World's Most Admired Companies, identifying the business practices that make these companies highly regarded among their peers.

Most Admired Company Survey Methodology FORTUNE collaborated with Korn Ferry on this survey of corporate reputation. They began with a universe of about 1,500 organizations comprising the 1,000 largest U.S. companies ranked by revenue, along with non-U.S. companies from FORTUNE's Global 500 database that have revenues of \$10 billion or more. The list was then winnowed to the highest-revenue companies within each industry, a total of 680 across 30 countries, and the top-rated companies were picked from that pool.

To determine the best-regarded companies spanning 52 industries, Korn Ferry asked executives, directors, and analysts to rate enterprises within their own industry on nine criteria, from investment value and quality of management and products to social responsibility and ability to attract talent. A company's score had to rank in the top half of its industry peer group to be listed.
