

"We are supporting identification of effective therapeutic options"- Dr Nandu Gattu

04 May 2020 | Views

Dr Nandu Gattu, Senior Vice President, Pharma Analytics, Excelra, Hyderabad talks about how the company is contributing towards combating COVID-19

"Excelra has released a COVID-19 Drug Repurposing Database (<https://www.excelra.com/covid-19-drug-repurposing-database/>). The COVID-19 DR database is a compilation of crucial data that is dispersed across numerous publications, reports, databases and knowledge-repositories along with referenced literature covering the drug, disease, target, and mechanism of action. Our endeavour is in support to the ongoing global scientific efforts for identifying safe and effective therapeutic options to treat the novel coronavirus disease."

- Dr Nandu Gattu, Senior Vice President, Pharma Analytics, Excelra, Hyderabad
