

Lupin Foundation contributes in combating COVID-19

24 April 2020 | News

Has undertaken several initiatives across the country, at a district level, to help people during the global pandemic

At a time when our country is fighting an unprecedented battle with Covid-19, Lupin Human Welfare and Research Foundation, the CSR arm of pharma company Lupin Limited, has undertaken several initiatives across the country, at a district level, to help people during the global pandemic. Right from coordinating with district administration and collectors, to providing food and other necessary items to the migrant workers, poor and homeless, the Lupin Foundation team has been working relentlessly.

PAN India:

To prevent the spread of the Covid-19 virus, the team is producing and distributing masks and hand sanitizers. Additionally, awareness generation is also being done through various means. The Foundation is closely working with another trinity of the government – The Collectors, Superintendent of Police (SPs) and Chief Medical Officers (CMOs) around the country, which has made their programme more effective and acceptable for resource mobilisation.

Through the efforts of Lupin Foundation, 11 districts in India were able to raise funds of INR 55,06,230, out of which INR 36,92,440 was raised by Lupin Foundation alone.
