Medikabazaar partners with Wipro for COVID-19 management

18 August 2020 | News

Medikabazaar launches MedSmart and MedScan to offer contactless attendance, sanitization, and body temperature measurement solutions for organizations in India.

Mumbai based Medikabazaar has teamed up with technology giant Wipro to promote the deployment of two specially engineered, Made in India products MedSmart and MedScan at workplaces.

The products facilitate contactless attendance and real-time body temperature measurement solutions for the businesses as the nation readies itself to resume operations onsite. The functioning of both the gadgets aligns with the new safety and hygiene protocols crucial amidst the pandemic.

MedSmart is a new-age product that offers complete post-COVID office solutions. It leverages a deep learning algorithm to enable touch-free attendance through face recognition technology, detect real-time body temperature and face mask compliance. Besides, the machine comes with an inbuilt automated hand sanitizer dispenser which makes entering the office a completely contactless experience. The health dashboard updates as soon as employees are scanned and maintain their day-to-day health information.

MedScan is an all-utility device applicable to every single work establishment. It comes with an automated hand-sanitizer cum IR thermometer which reflects the measured temperature on the LED screen.

Deploying smart gadgets, MedSmart, and MedScan at the entry doors of organizations will help in minimizing the risk of contamination amongst the workforce. This will significantly help in fostering confidence amongst the employees to resume work from offices.

India’s largest online portal for B2B medical supplies and equipment, Medikabazaar has been into many partnerships since the outbreak to facilitate the unrestricted movement of essential medical equipment for healthcare establishments across the country.
