Portea Medical, ConvaTec bring ostomy care & wound management in India

09 September 2020 | News

Portea Medical has been delivering consistent, high-quality care in various parts of the country

Bengaluru based Portea Medical, India’s largest out-of-hospital consumer healthcare services company, has recently partnered with ConvaTec in the UK.

ConvaTec is a global medical products and technologies company focused on therapies for the management of chronic conditions, with leading market positions in advanced wound care, ostomy care, continence and critical care, and infusion devices.

As part of this tie-up, Portea in partnership with ConvaTec will offer ostomy care and wound management services in all major Indian cities.

The tie-up will enable patients to get discharged from hospitals post-surgery to avail products and services at the comfort of their homes. They will also have access to other services like nutrition consultation and physiotherapy along with visits by trained and experienced nurses from Portea.

Portea Medical has been delivering consistent, high-quality care in various parts of the country. The company has catered to over 1 million patients in their home environment offering an extensive range of services for chronic diseases, elderly care, post-surgery care, diabetes management, chemotherapy at home, and other diseases or injuries requiring long-term care.

Through this partnership, patients will be able to access world-class care with improved outcomes and reduced cost of care.
