

BioSpectrum ranking issue for Medtech/Diagnostics coming soon!

04 January 2021 | News

To highlight the achievements of the medtech/diagnostics sector in India, BioSpectrum will release the ranking special issue in Feb 2021.

Amidst the pandemic, one more financial year concluded with lots of figures, calculations, positives and negatives, all related to finance and money, telling us where exactly the organisation stands today compared to the previous years. Everybody is interested in knowing the organisation's performance – independent as well as compared to others in the sector.

To highlight the achievements of the **medtech/diagnostics sector** in India, BioSpectrum is planning the ranking special issue in February 2021.

Companies will be ranked on the basis of their revenues and other achievements that took place in the last financial year FY19-20.

The last date for application is 8 January.
