Rainbow Childrenâ??s Hospital expands footprint in Bengaluru

09 November 2020 | News

This marks the award-winning hospital groupâ??s third unit in Bengaluru and the 13th unit across India

Rainbow Children’s Hospital and BirthRight by Rainbow, India’s largest paediatric hospital group, has announced the launch of its new hospital unit in Bengaluru. This marks the award-winning hospital group’s third unit in Bengaluru and the 13th unit across India.

The Hebbal unit is a 50-bed ultramodern and sophisticated hospital with all specialties and subspecialties catering to women and child care. The facility has two delivery suites, two operation theatres, an 11-bed state-of-the-art NICU, a 5-bed PICU, executive and deluxe rooms, and twin sharing rooms to cater to all sections of society, available at affordable rates, apart from its spacious OPD suites.

Expressing his delight on the occasion, Dr Ramesh Kancharla, Chairman & Managing Director, Rainbow Group of Hospitals said, “I am very happy to announce the launch of our third unit in Bengaluru. Despite the challenging circumstances, this has been a year of growth for us. As we step into our 21st year serving children and women across the country, we have grown to adapt to the new normal, our expansion in the Garden City is a testimony our commitment. For us at Rainbow, our greatest measure of success is the smiling faces of our patients.”

Echoing his views, Dr Rohit M Bhojaraj, Senior VP, Operations, Rainbow Children’s Hospital shared, "Rainbow Children's Hospital has consistently maintained its position as India's top paediatric multi-specialty chain of hospitals. We firmly believe that children need a Children's hospital. Our Hebbal unit will cater to the entire population of North Bengaluru.”
