Aakash Healthcare, Dwarka, a premier tertiary care healthcare provider in Delhi-NCR, welcomes the new year with the launch of a state-of-the-art Bariatric & Metabolic surgery unit under renowned minimal access and bariatric surgeon Dr Rajat Goel who has joined Aakash Healthcare as the Director of the Bariatric & Metabolic surgery unit.

Under the leadership of Dr Goel, the Bariatric & Metabolic surgery unit will offer comprehensive weight loss management, de-addiction, and psychological issues management programme. His team of experts is equipped with cutting-edge equipment and implants for surgery as well as comprehensive post-surgery support and help, facilitated by nutritionists, physiotherapists and psychologists. The department will also provide consultation services taking a holistic approach to lifestyle modification and stressing on healthy lifestyle development.

“We felt the need to take a focused approach for metabolic diseases and obesity as their numbers continue to rise in India, and more so in urban areas. I welcome Dr Rajat Goel who has close to two decades of experience in general and advanced laparoscopic surgery and has conducted more than 1000 bariatric surgeries to the team of experts at Aakash and convey my best wishes for a fruitful tenure here,” says Dr Aashish Chaudhry, Managing Director, Aakash Healthcare, Dwarka.
