JOGO Health opens three rehabilitation clinics in Tamil Nadu

01 March 2021 | News

The clinics set up in Jeevan Hospital, JSP Hospital, and Sai Fertility & Maternity Hospital Chengalpattu, will deliver world class digital therapy and benefit the public of this region immensely

In what could be termed as a quantum leap in healthcare infrastructure for Chengalpattu district, US-based digital therapeutics company; JOGO Health has launched three comprehensive rehabilitation clinics in Chengalpattu. Dr J Radhakrishnan, Health Secretary, Tamil Nadu inaugurated the clinics to public and addressed the gathering of over 150 medical professionals and the media.

The clinics set up in Jeevan Hospital, JSP Hospital, and Sai Fertility & Maternity Hospital Chengalpattu, will deliver world class digital therapy and benefit the public of this region immensely.

Sanjai Murali, Founder and CEO, JOGO Health said, “I am happy that many patients from Chengalpattu and near-by districts will benefit from JOGO therapy.”

“We feel vindicated with the gesture of Dr J Radhakrishnan, who always encourages technology that benefits public,” said Shanmugapriyan, Chief Strategist, SE Asia, JOGO Health.

Shyam Ramamurthy, Clinical Director, JOGO Health, said, “JOGO Therapy, has emerged as a definitive replacement to conventional therapies in medical specialties of neurology, pain medicine, cardiology, pulmonology, urology and gastroenterology. Clinical studies conducted in the US and the ones we have planned in India will help us develop treatment modalities for more conditions – I am excited that such advanced work in rehabilitation is happening in India.”

Dr OV Jayakumar, Director, Jeevan Hospital said “Comprehensive and advanced modalities is the need of hour for rehabilitation. Clinical evidence based approach and portable technology pioneered by JOGO is as impressive as their care delivery – I am excited about the positive impact JOGO will have on patients.”
