

## Ministry of AYUSH organises webinar on traditional medicinal products of BRICS nations

04 June 2021 | News

**Discussions were held on drug regulations, service standards and regulations, pharmacopoeia of traditional medicines**

Ministry of AYUSH recently organised a webinar on Harmonization of Regulation of Standardization of Traditional Medicinal Products of Brics Countries under India's BRICS Chairship of 2021. The event was attended by experts and stakeholders from the field of traditional medicine from India, China, South Africa, Russia and Brazil.

Ministry of AYUSH had proposed to organise the said webinar during the First meeting of BRICS Sherpas held on February 24-26, 2021 as a part of India's Chairship of BRICS 2021 which was agreed by the Member States. Ministry of AYUSH had also hosted the virtual meeting of the BRICS Experts in Traditional Medicines March 25, 2021.

AYUSH regulations and pharmacopoeial standards; Pharmacopoeia of Indian Traditional systems of Medicine - An overview and Standardization and Regulation of AYUSH Healthcare Services were presented by India during the webinar. During the second session of the webinar, discussions were held among the industry stakeholders from the field of Traditional Medicine from BRICS Countries. Comprehensive presentations were made by the representatives of the traditional medicine industry from India and China.

Dr Manoj Nesari, Adviser (AYUSH), Ministry of AYUSH, Government of India chaired the event and delivered opening remarks. While briefing about the webinar, Dr Nesari emphasised India's BRICS 2021 priorities and deliverables in the field of traditional medicine to enhance and strengthen BRICS collaboration. The proposal from India included MoU on BRICS Cooperation in Traditional Medicines and the constitution of the BRICS Forum on Traditional Medicine (BFTM). He underlined the need for harmonisation of regulation of standardisation of traditional medicinal products amongst BRICS countries. Initiatives taken by India for the mitigation of COVID-19 through the AYUSH system of medicine were also highlighted upon.

During the first session of the webinar, country presentations were made by the representative of BRICS countries on drug regulations; service standards and regulations; pharmacopoeia of traditional medicine in their respective countries.

The experts and stakeholders of traditional medicine from the BRICS countries expressed their appreciation and extended cooperation and support for India's efforts and initiatives taken for the promotion of Traditional Medicine globally including for

BRICS countries.
