Australia

Country Rank	Revenue CY 2010	% Share in 2010
1-3	8949.74	85.03
4-5	849.85	8.07
6-10	354.31	3.37
11-20	227.74	2.16
Others	143.53	1.36
Grand Total	10525.17	100

that is happening in China.

followed by South Korea and the others.

Legend: Country Rank: Publicly listed companies in the particular country; Revenue CY 2010: Revenue for the calendar year 2010; % Share in 2010: Companies' percentage share in the total revenue of publicly listed companies country wise

China leads with five companies having revenues in excess of \$1 billion. In fact, China's No. 1 company, Sinopharm, which is also Asia's No. 1 company for the second consecutive year in 2010 has grown by 48 percent and crossed the \$10 billion revenue milestone. In addition to Sinopharm, other Chinese companies have also grown at a fast clip – North China Pharmaceutical (113 percent growth), Yunnan Baiyao Group (78 percent growth), and Shenzhen Neptunus Bioengineer grew by a remarkable 51 percent. This is a sampling of the boom

Compared to this, India, the other fast growing market in the region, has just two billion dollar companies among the country's Top 20 list, however, a bunch of stable growing companies make up the rest of the industry. Australia has three companies over a billion dollars. And among other regions, it is likely that a couple of South Korean companies may cross this milestone in 2011. China, India, Australia continue to remain the Top 3 countries in the region, closely

The global pharma players have already recognized the opportunities available in China's fast growing pharmaceutical market. Sanofi-Aventis expanded its R&D presence in China by opening a new research center. Eli Lilly announced plans to launch 15 new products in China over the next five years. And

Medtronics started its operation in China.

With an increase in investment and competition from multinationals, the local big pharma companies are preparing to face new challenges in the growing market. Consolidation is being adopted as one of the strategies by the local pharma companies to counter the competition from multinationals.
