

Lupin donates oxygen generation plants to Maharashtra, Madhya Pradesh, Gujarat

11 June 2021 | News

The five oxygen plants will produce a total capacity of 3840 cubic metres of oxygen per day

Lupin through its CSR arm, the Lupin Foundation, is donating five oxygen generation plants to assist the states of Maharashtra, Madhya Pradesh and Gujarat in their ongoing fight against the COVID-19 pandemic.

In preparation of ensuring India has a solid response for a potential third covid wave, these five oxygen plants with a total capacity of 3840 cubic meters of oxygen per day have been donated to Madhya Pradesh, Maharashtra and Gujarat. The respective state governments will oversee the distribution of the oxygen produced at these plants to government hospitals and COVID care centres. The company is in discussions with other states to assist them in their fight against the pandemic through similar initiatives.
