HealthCare platform eka.care to integrate COWIN for vaccination booking

16 June 2021 | News

The platform will offer 24x7 post-vaccination free consultation

eka.care, a connected healthcare platform founded by co-founders of GoIbibo, has gone live with COWIN-approved vaccination slot booking to help people get vaccinated in an efficient and orderly manner. The platform integration with COWIN offers a bouquet of services seamless slot booking, pre and post-vaccination tele-consultation. The users on the platform can search for slots by location, type of vaccination, and cost to fit their needs. Post-vaccination, users will also be able to download the certificate and receive a reminder for the second dose.

While making this announcement, Vikalp Sahni, Founder & CEO, eka.care, said, *"e*ka.care has come up with these innovative solutions which include run health assessment to check for post-vaccine symptoms, connect with doctors and get free consultation 24x7 and secure vaccination documents in a virtual vault."

"*e*ka.care aims to provide a 360 degree COVID and post-vaccination care programme to all its users to ensure timely help and overall wellness at no additional cost. The 24x7 free consultations will help scores of people who otherwise are going through financial strain. Free reliable and trustworthy information dissemination by doctors is a boon in this era of misinformation on vaccination," says Deepak Tuli, Co-founder & COO, eka.care.
