Hitesh Mehta joins Honeywell Advanced Materials India as Country GM

18 June 2021 | News

Mehta has more than 20 years of experience in leading businesses in B2B markets and setting up greenfield projects

Honeywell has appointed Hitesh Mehta as the country general manager of Honeywell Advanced Materials India. Honeywell Advanced Materials is a strategic business unit of Honeywell's Performance Materials and Technologies division.

Mehta brings with him experience in the speciality chemicals and coatings industry. Before Honeywell, Mehta held leadership roles at Atotech India, Akzo Nobel, and 3M India. He has more than 20 years of experience in leading businesses in B2B markets and setting up greenfield projects. An enterprising and customer-focused leader, Mehta has a proven record of shaping growth across businesses based on his deep understanding of current and emerging market trends. Mehta is currently based in Bengaluru and will be relocating to Pune.
