Cloudnine opens new fertility centre in Sector 14, Gurgaon

01 July 2021 | News

The services at the new centre comprise advanced medical infrastructure, personalised patient care and OT labs

Cloudnine has opened the second dedicated state-of-the-art fertility centre Gurgaon at Sector 14. The services were inaugurated by the doctors of Cloudnine. The new facility brings the total number of Cloudnine fertility centres in India to 16.

The services at the new centre comprise advanced medical infrastructure, personalised patient care and OT labs. It will offer end-to-end treatment at the clinic for procedures such as Intrauterine insemination (IUI), In vitro fertilization (IVF), Intracytoplasmic Sperm Injection (ICSI), egg/embryo freezing, TESA, embryo biopsy, laser-assisted hatching, laparoscopy, hysteroscopy, blastocyst transfer, consultation, counselling, PGS, micro TESE, comprehensive male and female fertility solutions will be offered at the unit. The team of specialists include doctors in infertility, reproductive medicine, reproductive endocrinology, embryology, andrology among others.

Dr Pawan Kumar, Regional Director (North), Cloudnine says, “Our aim is always to improve outcomes at each stage of conception, pregnancy and childbirth so that expecting parents take a healthy baby home. With the addition of our services in Sector 14, Gurgaon, we will be strengthening our commitment with advanced fertility services and individualised patient care to every couple currently facing problems related to conception and childbirth.”

Suresh Pandiyan, Vice President- Fertility, Cloudnine said, “With the availability of advanced medical technology, it is imperative that timely interventions can be attempted and the root cause and the treatment is mapped which in turn is very crucial to enable couples to embrace parenthood at the right time and in a memorable manner."
