Govt opens CoE for research on narcotics and psychotropic substances

12 July 2021 | News

The Cyber â??â??Defence Center and Ballistic Research Center set up in this Center are unique in the whole of Asia

The Union Home Minister Amit Shah inaugurated the newly built Center of Excellence (CoE) for Research & Analysis of Narcotics and Psychotropic Substances of the National Forensic Science University in Ahmedabad.

Amit Shah said that 7 States of the country have expressed their desire to open Colleges and Centers of Excellence affiliated to the National Forensic Science University, Gujarat.

Shah said that an indigenous kit will also be made in this university to conduct a lot of tests which will be made available to police forces across the country. Wherever narcotics are seized, investigation will be pursued by checking with this kit.

The Cyber Defence Center and Ballistic Research Center set up in this Center are unique in the whole of Asia and the nation is on course to be self-reliant in this field. The Union Home Minister said that the fight against cyber war and cyber crime is very important for us as India is an emerging economy.
