SpiceHealth launches covid vaccination programme

13 July 2021 | News

Launches vaccination centres in Delhi, Haryana, Rajasthan, Bihar and Jharkhand

SpiceHealth has launched a massive covid vaccination drive across five states by tying up with major hospitals in Delhi, Haryana, Rajasthan, Bihar and Jharkhand. The company has launched vaccination centres at Delhi's Aashlok Hospital and Paras Hospitals in four states. SpiceHealth will soon start covid vaccination at its various collections centres and labs spread across nine cities in India.

Customers can book their vaccination slots on spicehealth.com. SpiceHealth is offering customers a single dose of Covishield at INR 780 as per Government guidelines. SpiceJet passengers, with a valid PNR, will have the benefit of availing the single dose at a special price of Rs 750. SpiceHealth aims to extend the vaccination programme across its 21 labs and collection centres spread across nine cities in India in a phased manner and will tie up with more hospitals.

Avani Singh, CEO, SpiceHealth said, "Our mobile labs have played a crucial role in bringing down the cost and ramping up RT-PCR testing across the nation, with 3.5 million tests conducted by our team in just 7 months. While testing continues to remain crucial and SpiceHealth continues to test in large numbers, large-scale vaccination drives are just as imperative for India to beat the pandemic. We are proud to play a role in vaccinating India."

SpiceHealth has also launched an exclusive offer for SpiceJet passengers on getting vaccinated from SpiceHealth's partner hospitals or labs. SpiceJet passengers will get a free flight voucher worth Rs 750, equivalent to the cost of a single dose of vaccine. The voucher will be sent to the passenger's email ID within 72 hours of booking the vaccination slot on SpiceHealth website. The voucher can be used till September 30, 2021, and has travel validity from August 1, 2021, till March 31, 2022, on one-way domestic direct flight routes. This exclusive offer will be available starting July 15, 2021.
