

SpiceHealth launches first mobile testing lab in Guwahati

26 July 2021 | News

To conduct RT-PCR and rapid antigen tests

SpiceHealth has launched its first mobile testing laboratory in Guwahati to conduct Real-Time Polymerase Chain Reaction (RT-PCR) and Rapid Antigen tests.

The company's mobile lab will be stationed at the Indira Gandhi Athletic Stadium whereas the sample collection set-up will be at Lokpriya Gopinath Bordoloi International Airport.

The company has partnered with National Health Mission, Assam to set up the facility in Guwahati and will conduct testing at the airport and nearby districts.

SpiceHealth operates 23 labs and collection centres spread across ten cities in India. The company operates seven vaccination centres in five states.

Avani Singh, CEO, SpiceHealth said, "As part of our commitment towards ramping up Covid testing across the country to control the spread of the pandemic, SpiceHealth has launched its first mobile RT-PCR and Rapid Antigen testing laboratory in Guwahati. With the recent launch of our mass vaccination exercise and presence of mobile testing laboratories across India's worst-affected regions, SpiceHealth is steadily inching towards its pan-India presence ensuring public healthcare driven by innovation and affordability."
