

Apollo Fertility opens Varanasi centre

02 August 2021 | News

The centre is spread across 7000 sq ft

Apollo Fertility (part of Apollo Health & Lifestyle and the Apollo Hospitals group) has opened a fertility centre in Varanasi. Spread across 7000 sq ft, the IVF lab has class 100 OT & laminar airflow, HEPA filters, and separate AHUs for OT & Embryology lab as per international standards which ensures superior air quality and best culture conditions for embryos to grow.

Dr Ajay Gangoli, Medical Director - AHLL shared, "Change in lifestyle, delayed family planning, stress, irregular sleep patterns, diabetes, obesity, smoking and alcohol etc. are the reason that affecting fertility and have led to rising in male and female infertility.

Speaking on the launch, Chandrasekhar, CEO, Apollo Health & Lifestyle Limited, said, "We are happy and proud to launch the fertility centre in Varanasi, Uttar Pradesh. After the successful launch of Fertility Centres in Solapur, Borivali, Kolkata, Thane, Noida, Hyderabad earlier this year, this will be the groups second flagship centre in Uttar Pradesh and first in Eastern UP. With a wide range of services being offered under one roof, the centre will be a boon to many couples living in and around Varanasi and adjacent districts of Jaunpur, Azamgarh, Mau, Balia, Ghazipur, Chandauli, Mirzapur, Sonabhadra and Sant Ravidas Nagar."
