

#startupoftheday 30- Pyramed

12 October 2021 | Features

A unique tele-consultation portal

Inception- 2020

Location- Mumbai

Domain- Digital Healthcare (Telemedicine)

Founders- Dr Ketan Parikh and Kartik Parikh

Total team strength- 10

Total funds raised - Bootstrapped

Investors- NIL

Revenue generated since inception- Less than Rs 1 lakh

Key Highlights-

- Helps primary doctor to easily access assistance and advice from specialists and enhance case-based knowledge and

learning

- Born out of a need to ensure that the benefit of technology is made available to doctors across India
- Enables complete pre-procedure assessment (as advised by a specialist) at home
- Internationally acclaimed as the ideal healthcare model

Founder Speaks-

"Telemedicine is the way forward for solving the health inequity in the country. The application needs to ensure inclusivity of the largest section of population affected rather than restrict to the section of population who only use the platform as a fancy application. Honesty to the purpose, ease of use, adequate scalability will ensure the success of the model."

- Dr Ketan Parikh, Founder, Pyramed, Mumbai
