Global Dental Academy opens in India

13 September 2021 | News

With a competent team of professionals delivering world class courses

Global Healthcare Academy (GHA) has launched the Global Dental Academy under the aegis of Dr Girish Rao and Dr Anand Krishna, maxillofacial surgeons from Bengaluru. Both the dental surgeons have been practising in Bengaluru for the past 25 and more years.

The Global Dental Academy will initially offer courses such as digital dentistry, smile designing, implantology, infection control in dental surgery, medical emergencies in dentistry, to name a few. Besides online Courses, GDA will also conduct workshops and hands on practice courses.

The future oral implantology has developed and progressed into a central core of the art and science of dentistry. This field, over the course of its existence, has transformed from a modality on the fringes of the profession to being embraced by virtually every component and aspect of our discipline. Oral Implantology is a discipline filled with complexity. The field demands its practitioners to have a high level of expertise in a vast array of areas, many of which evolve at a fast rate. These courses aim to introduce its participants to a fascinating subspeciality whilst understanding its core concepts.

Speaking on the occasion, Dr BS Ajaikumar, Chairman, GHA said that the launch of the Global Dental Academy is a major achievement for GHA and its commitment to offer state of the art CME training courses to healthcare professionals in India and abroad. The GDA has a competent team of professionals, and we will be delivering world-class courses through this academy.
