

Medulance Healthcare with NephroPlus to aid in dialysis care in 23 states

17 September 2021 | News

The collaboration will provide dialysis services to more than three million users enrolled under MeduAlert, a corporate programme by Medulance Healthcare

Medulance Healthcare has announced its partnership with NephroPlus, to help patients understand the treatment options and access dialysis services at home, at the centre or on wheels. The collaboration will bring dialysis services across 23 states in India to more than three million users enrolled under MeduAlert, a corporate programme by Medulance Healthcare crafted to provide timely assistance in case of dire circumstances.

Pranav Bajaj, Co-Founder, Medulance, said, "With this partnership we aim to provide timely assistance to patients, both COVID-19 positive and non-COVID patients undergoing dialysis across India, as per their convenience. We are hopeful that this partnership will prove beneficial to our users who are on the lookout for a convenient dialysis service."

Kamal Shah, Co-Founder, NephroPlus said, "We are delighted to partner with Medulance and bring our high quality, patient-centric and protocol-driven Dialysis services to patients who use Medulance's services."
