NITI Aayog accelerates digital innovation in India in collaboration with AWS & Intel

30 September 2021 | News

Initially focusing on healthcare and agriculture

The National Institution for Transforming India (NITI Aayog), the Government of India's national policy think tank, Amazon Web Services (AWS), and Intel have come together to establish a new experience studio at the NITI Aayog Frontier Technologies Cloud Innovation Center (CIC).

Located in NITI Aayog's New Delhi premises, the studio will bea hub for collaboration and experimentation to enable problem solving and innovation between government stakeholders, startups, enterprises, and industry domain experts.

The studio will help showcase the potential of technologies such as artificial intelligence (AI), machine learning (ML), Internet of Things (IoT), augmented reality and virtual reality (AR/ VR), blockchain, and robotics to accelerate their application in public sector use cases.

The studio will encourage open innovation and serve as a hub for government, healthcare, education, and nonprofit startups from India to showcase their solutions. It will also provide startups with an option to access necessary support to enhance and scale their solutions.

Startups will also be encouraged to participate actively in the studio through hackathons, grand challenges,and other capacity building initiatives, in collaboration with the Atal Innovation Mission (AIM) and Atal Incubation Centres (AIC).
