

India, Croatia collaborate for academic research in traditional medicine systems

08 October 2021 | News

AIIA - Kvarner Health Tourism Cluster sign MoU

Paving the way for academic collaboration in India's traditional medicine systems, especially in the field of Ayurveda, between the two countries, the Ministry of Ayush has entered into an agreement with Croatia.

The Memorandum of Understanding was signed between All India Institute of Ayurveda (AIIA) and Croatia's Kvarner Health Tourism Cluster. AIIA is an autonomous body under the Ministry of Ayush.

The MoU with Croatia is a significant step towards bolstering India's ties with other countries and promoting academic research, clinical and educational activities, medical education, training, and competency building.

The two sides will undertake academic activities in the field of Ayurveda in collaboration with the identified institutions. There will be close cooperation and collaboration on research, including study design and execution, developing evidence-based guidelines for integrating Ayurvedic principles and practices with modern medicine, conducting lectures, workshops, seminars and conferences, and other such activities on Ayurveda.

Both sides will also develop academic standards and courses in accordance with the needs of the institution, end users and stakeholders and develop Ayurvedic medical education guidelines for Ayurveda education in Croatia.
