Neuberg Diagnostics opens lab in Kaloor, Kerala

01 November 2021 | News

Planning to launch 30 new labs

Chennai-based Neuberg Diagnostics has opened a state-of-the-art pathology lab in Kaloor (Kochi), Kerala.

As a part of its FY22 expansion plan, Neuberg will be launching 30 new labs and more than 500 collection centres in domestic and international markets.

It will also be establishing technology incubation centres in the US and Europe to access the latest technologies and make developing countries ready for precision diagnostics in the evolving personalised medicine arena.

Dr GSK Velu, CMD, Neuberg Diagnostics, said, “We are expanding internationally by increasing our presence in the US and opening diagnostic facilities in East Africa and West Asia. Additionally, we will be commissioning a state-of-the-art testing facility in Dubai which will act as a hub in West Asia. This is in addition to our plans for Sri Lanka, Nepal, Bangladesh, and Germany which are likely to fructify in the current financial year.”

Aishwarya Vasudevan, Group Chief Operating Officer, Neuberg Diagnostics, said, “The establishment of the new lab in Kaloor is yet another step by Neuberg towards alleviating pain points in the healthcare ecosystem and ensuring that advanced diagnostics tests are available to people in India and overseas.”
