Cloudnine opens second fertility centre in Panchkula

02 November 2021 | News

Services at the unit will consist of advanced medical infrastructure

Cloudnine has launched its second dedicated state-of-the-art fertility services at Panchkula, a part of the tri-city area. The centre located at Panchkula brings the total number of Cloudnine fertility centres in India to 17.

Services at the unit will consist of advanced medical infrastructure and shall offer treatment for procedures such as intrauterine insemination (IUI), laparoscopy, hysteroscopy along with counselling on all comprehensive male and female fertility solutions. The team of specialists include experienced doctors in fertility, reproductive medicine, reproductive endocrinology, embryology, andrology among others.

Dr Pawan Kumar, Regional Director (North), Cloudnine “With the addition of our services in Panchkula we will be strengthening our commitment with advanced fertility services and individualised patient care to every couple currently facing problems related to conception and childbirth.”
