C-CAMP, BGC to conduct training course on genomics & bioinformatics

02 November 2021 | News

The three-day course is scheduled from November 10-12, 2021

The Centre for Cellular and Molecular Platforms (C-CAMP) and Bengaluru Genomics Center (BGC) will be jointly organising the 3rd online training course on 'Introduction to Genomics and Bioinformatics: An Online Primer on Transcriptome/RNA Sequence Data Analysis'. The three-day course is scheduled from November 10-12, 2021.

The course will have a plenary lecture on Next-Generation Sequencing (NGS) Technologies and Applications, Illumina- based NGS Library preparation, sequencing using Next-Generation Sequencing Platform, basics of bioinformatics and NGS Data Formats, transcriptome data assembly, annotation of transcripts and differential gene expression analysis.

Candidates will need to fill up the registration form and furnish the required details at https://tinyurl.com/NGSCourse3.
