O2 Cure unveils portable air purifier

09 November 2021 | News

Air purifiers are gradually becoming a lifestyle accessory along with healthy and medical safety

Gurugram-based O2 Cure by ZECO Aircon has introduced a portable air purifier REME LED. The portable air purifier protects from air-borne harmful pathogens including the novel SARS COV2 coronavirus.

It offers REME LED active purification technology by RGF, USA along with washable filters and ultra-quiet operation. Ideal for small spaces, the product features a long power life and functions as a low maintenance advanced catalyst. The innovation is priced at Rs 21,995.

Kartik Singhal, Founder, O2 Cure and Director, Zeco Aircon said, “The O2 Cure REME Led portable purifier has a one-of-a-kind design that intelligently purifies larger indoor areas up to 200 square feet."
