

Medlounges launches wellness programme Body Shaping and Contouring in India

22 November 2021 | News

The 360° wellness approach has been designed by Dr Joseph Thomas

Kerala-based Medlounges has launched its unique wellness programme Body Shaping and Contouring in India. The 360° wellness approach has been designed by Dr Joseph Thomas.

The multi-disciplinary state-of-the-art ultra-modern facility is spread over an area of 30,000 sq ft with an ample parking facility of around 10,000 sq ft.

Through this new initiative, Body Shaping and Contouring, the company follows a very simple non-invasive body shaping procedure by involving pulsed ultrasound energy to destroy selective fat cells. Moreover, vaser liposuction which is a US patented program will be strategized and performed by the panel of doctors to ensure a quicker result.

Dr Joseph Thomas, Founder and the Medical Director, Medlounges said, "We are proud to introduce this unique wellness programme in India, with our ardent customer base and elongated market presence, we are confident that Medlounges could further strengthen its foothold in the body shaping and contouring as well."
